गाजियाबाद : रोटरी हेल्थ अवेयरनेस मिशन व रोटरी क्लब ऑफ मवेरिक्स द्वारा मंगलवार को बुलंदशहर औद्योगिक क्षेत्र स्थित सिल्वरलाइन प्रेस्टीज स्कूल में निशुल्क स्वास्थ्य जांच शिविर का आयोजन किया गया। इस दौरान 130 लोगों ने ब्लड प्रेशर, शुगर, ईसीजी व हड्डियों की जांच कराई। वसुंधरा स्थित क्लियरमेडी सुपर स्पेशलिटी एंड कैंसर हॉस्पिटल से आए फिजिशियन डा.आशीष, आर्थो डा. मनु गौतम ने लोगों के स्वास्थ्य की जांच की। डा.आशीष ने डायबिटीज व ब्लड प्रेशर के मरीजों को खान-पान पर विशेष ध्यान देने को कहा। उन्होंने कहा कि डायबिटीज के मरीजों को गर्मियों में विशेष सावधानी बरतने

की जरूरत है। गर्मियों में शरीर में पानी की कमी (डिहाइड्रेशन) होने से रक्त में ग्लूकोज की मात्रा बढ़ जाती है, जो डायबिटीज वालों के लिए समस्या पैदा कर देती है। इसलिए डायबिटीज वालों को कम-से-कम तीन

लीटर पानी प्रतिदिन पीना चाहिए। ग्लूकोमीटर द्वारा नियमित रूप से रक्त में ग्लूकोज की मात्रा की जांच करें। डायबिटीज वालों को फलों में जामुन, सेब, संतुलित मात्रा में तरबूज व खरबूज का सेवन करना

चाहिए। उन्होंने कहा कि आज देश में हर आठवां व्यक्ति ब्लड प्रेशर से ग्रसित है। यदि इनसे बचना है तो मौसम के अनुसार जीवनशैली में बदलाव करें।

रोटरी हेल्थ अवेयरनेस मिशन, रोटरी क्लब ऑफ दिल्ली लिगेसी व इंदिरापुरम परिवार ने परिवर्तन स्कूल में सर्वाइकल कैंसर पर किया जागरूक

जागरूकता की कमी से पैर पसार रहा सर्वाइकल कैंसर : डा.सवेरा

गाजियाबाद : रोटरी हेल्थ अवेयरनेस मिशन, रोटरी क्लब ऑफ दिल्ली लिगेसी व इंदिरापुरम परिवार की ओर से नूर नगर स्थित परिवर्तन स्कूल में बृहस्पतिवार को सर्वाइकल कैंसर पर जागरूकता कार्यक्रम का आयोजन किया गया। इस दौरान दिल्ली के धर्मशिला नारायणा कैंसर सुपर स्पेशलिटी हॉस्पिटल की डा. सवेरा ने छात्राओं को सर्वाइकल कैंसर के बारे में जागरूक किया। डा.सवेरा व अन्य अध्यापिकाओं को शॉल ओढ़ाकर सम्मानित भी किया गया। डा.सवेरा ने कार्यक्रम को संबोधित करते हुए कहा कि जागरूकता की कमी के कारण आज सर्वाइकल कैंसर पैर पसार रहा है। यह लाइलाज नहीं है। सर्वाइकल कैंसर दुनियाभर की महिलाओं में स्तन कैंसर के बाद होने वाला दूसरा सबसे आम कैंसर है। औसतन विश्व में हर 10 में से एक महिला (35 से 55 आयुवर्ग) इसका शिकार होती है। यह मुख्यतः ह्यूमन पेपिलोमा वायरस या एचपीवी के कारण होता है। यह ऐसी स्थिति है, जो मुख्यतः गर्भाशय ग्रीवा यानी सर्विक्स की परत या गर्भाशय के निचले हिस्से को प्रभावित करती है। यह कैंसर धीरे-धीरे विकसित होता है और समय के साथ पूर्ण विकसित हो जाता है। देश के ग्रामीण इलाकों में जानकारी के अभाव में अधिकतर महिलाओं की मौत इससे ही होती है। लोक-लाजवश भी कई महिलाएं इस समस्या को दूसरे से कह नहीं पातीं। इसी का नतीजा है कि विश्व के बाकी देशों के मुकाबले भारत में सर्वाइकल कैंसर तेजी से अपने पैर पसार रहा है। महिलाओं

को संक्रमण से बचने के लिए जीवनशैली में परिवर्तन करने चाहिए। इसमें कई साधियों के साथ यौन संपर्क से बचाव, नियमित जांच, धूम्रपान का त्याग, फलों, सब्जियों व साबूत अनाज का सेवन और शरीर का वजन ठीक रखना प्रमुख कदम हैं। रोटरी हेल्थ अवेयरनेस मिशन के चेयर डा.धीरज भार्गव ने कहा कि

सर्वाइकल कैंसर का इलाज उस स्टेज पर निर्भर करता है, जिस स्थिति में कैंसर का पता चलता है। आमतौर पर शुरुआती अवस्था में सर्जरी द्वारा गर्भाशय को निकाल दिया जाता है। लोगों में आम धारणा है कि अगर उनके परिवार में यह पहले किसी को नहीं हुआ, तो उन्हें भी नहीं होगा। लेकिन सच यह है कि इसके बावजूद

इसके होने का खतरा होता है। टीके लगने के बाद भी महिलाओं को नियमित रूप से पैप स्मीयर कराते रहना चाहिए। अगर पहले किसी के साथ यौन संबंध रहें हैं, तो बढ़ती उम्र के साथ सर्वाइकल कैंसर हो सकता है, इसलिए भी जांच बेहद जरूरी है। इस दौरान रोटरी क्लब ऑफ दिल्ली लिगेसी के अध्यक्ष मनीष गुप्ता, दिल्ली

विकास के अध्यक्ष सुनील मल्होत्रा, दिल्ली मोनार्च के अध्यक्ष नमन जैन, इंदिरापुरम परिवार के अध्यक्ष सुशील चंडाक, अंशुल जैन, असिस्टेंट गवर्नर सुनील गौतम, राजेश मिश्रा, संदीप मिगलानी, प्रेम माहेश्वरी, मावेरिक्स के सैकेटरी आशीष सिंह, स्कूल की प्रधानाचार्य संगीता शर्मा सहित सैकड़ों छात्राएं मौजूद रही।

EDITORIAL**Substantive equality: on SC/ST govt. staff promotions**

The Supreme Court verdict upholding a Karnataka law to preserve the consequential seniority of Scheduled Caste/Scheduled Tribe candidates promoted on the basis of reservation is notable for being the first instance of quantifiable data being used to justify reservation. After a similar 2002 law was struck down on the ground that there was no data, as required by the judgment in Nagaraj (2006), the Karnataka government appointed a committee to collect data on the “backwardness” of SC/ST communities, the inadequacy of their representation in the services and the overall impact of reservation on the efficiency of the administration — parameters laid down in the 2006 verdict as constitutional limitations on the power to extend reservation in employment. Based on the report, the State enacted a fresh law, which has now been upheld on the ground that it is compliant with the Nagaraj formulation, as well as the clarification found in Jarnail Singh (2018). A key principle in this decision is that where reservation for SC/ST candidates is concerned, there is no need to demonstrate the ‘backwardness’ of the community. The other pre-requisites of a valid system — quantifiable data on the ‘inadequacy of representation’ for classes of people identified for reservation, and an assessment of the impact of such quota on the “efficiency of administration” — remain valid. Justice D.Y. Chandrachud’s judgment applies the rule emerging from Jarnail Singh, which decided that Nagaraj did not require reconsideration. At the same time, it held that Nagaraj was not right in insisting on data to justify the ‘backwardness’ of SC/ST communities, as it contradicted a nine-judge Bench decision in Indra Sawhney (1992).

The judgment places in perspective the historical and social justification for according reservation, rejecting the argument that quotas, by themselves, affect administrative “efficiency”. It says merit lies not only in performance but also in achieving goals such as promotion of equality, and that India’s transformative Constitution envisages not just a formal equality of opportunity but the achievement of substantive equality. It accepts the subjective satisfaction of the government in deciding the adequacy of representation, subject to the norm that there should be relevant material before it. One must also recognise the constant tension between legislative intent and judicial interpretation. Most judgments on affirmative action indicate that the courts are laying down constitutional limitations, lest the equality norm, a basic feature of the Constitution, be given the go-by. It is welcome that the backwardness of the SCs and STs no more needs to be demonstrated. Policy-makers should heed the appeal contained in the judgment: there is no antithesis between the concept of efficiency and the inclusion of diverse sections of society in the administration. While data on representation may be a requirement, the idea that reservation has an adverse effect on administration must be rejected.

Will adjust excess fee next year, school tells parent

NOIDA: The Cambridge School in Noida Sector 27 has informed a single parent of a nursery student that Rs 18,835 charged by it will be adjusted in the next quarter. The move came following a notice from the District Fee Regulation Committee (DFRC), which had asked the school to refund all fee charged in excess of what was permissible under the Uttar Pradesh Independent and Self-funded Fee Regulation Act (2018). The parents’ group, which had filed the complaint with the DFRC, said that a single

resolution is not what they expected from the school. “The school has responded to one complaint, but it must refund the excess fee of all students even if only one parent had filed the complaint,” said K Arunachalam, the general secretary of All Noida School Parents’ Association (ANSPA). No official from Cambridge School could be reached for a comment despite repeated attempts. The DFRC had sent the notice of refund on April 20 to Cambridge and Apeejay

schools in Noida. However, both the schools have been slow in acting on the refund order. “The schools are toying with the refund order. While the excess fee has been refunded to some parents in Apeejay, many are still waiting for the same. At Cambridge too, only one refund has been put through,” Arunachalam added. Commenting on the delay in refund by the schools, the education department officials said that the unresolved refunds would be taken up for discussion in the next meeting of the DFRC.

Noida, Delhi spar over waste dumped in Shahdara drain

NOIDA: Sewage waste dumped by nearly 6,000 shanties into Shahdara drain has become a bone of contention between Noida Authority and the Delhi government’s irrigation and flood control department (IFCD). “We cannot construct a sewage line as we do not have jurisdiction over the drain, which comes under IFCD. Madrasa teacher who thrashed minor girl with belt arrested

NOIDA: A religious teacher, who was booked for allegedly thrashing a six-year-old girl with a belt at a madrasa here for not being able to learn her lessons, was arrested on Friday, police said. A complaint was lodged at the sector 49 police station here against maulvi Mohammad Nawaz by the minor girl’s father a couple of days ago, they said. “Nawaz, who taught at the madrasa in Sector 115, had gone absconding since police began the probe. He had come to the madrasa this afternoon where we nabbed him after a tip-off,” SHO Ajay Aggarwal said. “The teacher told police that he has always been careful while

dealing with the students but the child seemed not to be learning her lessons and that irked him to the extent that he thrashed her with a belt,” he said. Aggarwal told PTI said the teacher has admitted that it was a “mistake” and was apologetic about the incident. According to the girl’s father, he had recently visited his daughter at the madrasa when he found that she had bruises on her back. “She told me that she was brutally beaten by the maulvi,” he alleged. He further claimed that on enquiring about the matter at the madrasa, he was “threatened by around 10 people who had sticks in their hands”.

Two hired for doctor’s murder arrested

GHAZIABAD: Two men were arrested from near Hindon Barrage on Tuesday around 1am for their alleged involvement in the murder of a 42-year-old ayurvedic doctor in February this year and a robbery which took place in a jewellery shop last week. With the arrest of Rohit (24), a resident of Burari in Delhi and Rakesh Dujana (28) from Gautam Budh Nagar, police claimed to have solved both the cases. According to police, both the men worked as ‘hired assassins’ and have several cases of murder and attempt to murder registere against them in NCR. On February 20, the ayurvedic doctor and

Bahujan Samaj Party (BSP) functionary Veer Singh was shot dead. SP (city) Shlok Kumar said, “The duo had been hired by two brothers, Sandeep and Pradeep, who lived opposite to Veer Singh in Rishi market. While they were hiding from the police, they needed money so on May 2 they robbed a jewellery shop in Vijay Nagar of ornaments worth Rs 4 lakh.

Residents seek builders’ corpus to finish flats

GHAZIABAD: The Federation of Apartment Owners’ Association (FEDAOA) in the city has written to the Centre, suggesting that a clause be inserted in the Rera Act making it mandatory for builders to create a corpus that can be used to complete a stalled project. The forum suggested that builders be mandatorily asked to contribute a portion of the money earned from selling flats towards the corpus. “There have been a number of instances where builders have defaulted or have been declared absconders after leaving a project in a limbo. It

is the buyer alone who eventually bears the brunt,” said Alok Kumar, president of FEDAOA. “There is a provision in the RERA Act. Under Section 75 (1) of the Act, a real estate regulatory fund can be created for a project. The money could later be used in completing abandoned projects. This will provide relief to distraught buyers. But the fact remains that this is still not in practice. It is against this backdrop that we have written to the ministry of housing and urban affairs to implement the order,” Kumar said. The move comes a day after the UP-Rera bench in neighbouring

Now, board a bus from metro station parking lot

NOIDA: The Authority and traffic police started parking of buses in the multilevel parking lot at Botanical Garden metro station on Saturday in an attempt to decongest the area. The buses are being parked in the space between the metro station and the upcoming multilevel parking lot. Now, buses are stopping at gate 4 of the metro station for a maximum of 15 minutes. On Saturday, a jersey barrier was placed on the road to direct buses towards the parking lot. Noida Authority did not charge parking fee on the first day and

sources said around 100 buses used the parking space throughout the day. “Buses were parked smoothly and there was no resistance from drivers, as they had been informed before hand. Buses can be parked for free for the first 15 minutes. We are working out what to charge in case they are parked for longer duration,” said Rajeev Tyagi, the general manager, Noida Authority. Noida Extension residents take stains off 15 statues in city

GREATER NOIDA: A group of 30 residents of Noida Extension cleaned around 15 statues installed by the Greater Noida Industrial Development Authority (GNIDA) with the help of water tankers, hosepipes and rags on Sunday. The group of residents said the statues had become an “eyesore” as they had been covered in dust for several months. The group began cleaning the statues at 6am on Sunday and worked till the afternoon. “We’ve already

completed cleaning an entire stretch of road in four weeks. Now, we’ve started cleaning the statues because they serve as landmarks for our addresses and are never cleaned. We decided to take up the responsibility and cleaned 15 of them today,” Abhishek Kumar, president of Noida Extension Flat Owners’ Welfare Association (Nefowa), said. Statues that have been cleaned include the Char Murti — the four statues of the Buddha at Kishan Chowk — and various

animal figurines at several traffic intersections in the area. The residents mounted the statues and dusted them before washing them down with hosepipes. “We are proud to have contributed to cleaning the statues today. Mostly made of bronze, they have a lot of visual appeal, but remain shrouded in thick layers of dust. We will visit the statues again after some time. We have volunteered to clean up Noida Extension on our own because we live here and we don’t get efficient

responses from the authorities on our complaints,” Kumar said. Meanwhile, GNIDA officials said they have started repairing roads in the area. “It is good that residents are coming forward to clean their city. However, we have started working on the road repairs and other complaints they have brought to us,” an official said. Residents of Noida Extension residents have, since April, come together to clean one of the area’s major arterial roads in Sector 16B.

Woman delivers stillborn, doctor booked for negligence

GREATER NOIDA: A Greater Noida-based couple has lodged a complaint at Sector 49 police station, alleging that negligence of a doctor of Cloudnine Hospital had led the woman to deliver a stillborn on March 9. The couple has alleged that Dr. Pratibha Singhal, who was supposed to do the delivery, arrived late by over 2 hours, in turn delaying the surgery. They also lodged a complaint with the National Commission for Protection of Child Rights (NCPCR) on April 4, after which it sought a report from the district magistrate in seven days. According to the commission, the DM was

supposed to give a report by May 9, but there has been no response yet. Ankit had complained that his wife had crossed her due date but there was no doctor available at the hospital. “Around 9.30 pm, Shweta’s labour pain started. I immediately called the doctor who had been treating my wife. She said everything was normal. However, I had requested her to come to the hospital,” Ankit told TBC. He added, “When we reached the hospital, a junior doctor examined her and at 10.15 am she said both the mother and the baby were fine and asked us to wait for the doctor.”

Noida to treat waste water, supply it to flats

NOIDA: The Noida Authority on Sunday set a target of recycling 100% of the water generated from its sewage treatment plant (STP) to make Noida a zero-discharge city. The initiative comes after Noida had kicked off a campaign on April 16 to treat horticulture waste through indigenous organic compost pits across the city’s parks and green belts. As part of the plan, the STP in Sector 168, which has 50 million litres per day (MLD) water capacity, will be scaled up to 100 MLD by May 15 so as to make it fully functional and cater to the

increasing number of upcoming highrise apartments and green stretches. While Authority officials visited the site on Sunday, they maintained that laying of pipes has been completed at the plant from where treated water will be used to irrigate green areas and parks of the neighbouring sectors 91, 93, 137, 143, 143A and Faridabad-Noida-Ghaziabad green belt. The connectivity of pipelines has been completed in these areas and the process will begin by May 15,” said Rajeev Tyagi, general manager, Noida Authority.

SC: Afraid of what you will do with property?

NEW DELHI: After Noida and Greater Noida authorities said they won't be able to complete Amrapali projects, the Supreme Court said it would pass orders on handing over the projects to other companies and would consider the option of government-owned NBCC, Hudco or reputed private companies like Larsen & Toubro. "So you are afraid of what you will do with the property," the bench of Justices Arun Mishra and U U Lalit said. The court directed the authorities to issue occupation certificates in those projects in which people had taken possession of flats to enable them to live there.

Bird risk to flights puts question mark over wetlands around Jewar

NOIDA: The fate of 63 wetlands hangs in balance as they lie within the area earmarked for Jewar airport and in the adjoining 15 km. Responding to an RTI query, the forest department has said there are three wetlands — over 2.5 hectares in the area that lie within the Jewar airport land. Another 60 wetlands are within the adjoining 15 km, making it a total of 63 in the proposed airport’s impact zone that cannot be provided protection. Wetlands are breeding grounds for birds and their presence around the path of flights increases risk of bird strikes to planes. According to

the draft Environmental Impact Assessment (EIA) report prepared earlier for the Jewar airport, the area is also close to the sarus crane habitats and their presence can impact flight safety. Officials, however, say since the planning for the Jewar airport is still in its nascent stage, these wetlands will be looked into and their management plan will be prepared. But environmental activists have made it clear that scientific alternatives are required to compensate for these wetlands since Jewar’s water table is already over exploited.

Unsegregated waste won’t be collected from July, Noida tells malls and hospitals

NOIDA: The Noida Authority has written to all institutions in the city, including RWAs, malls and hospitals, to start segregation of waste before June 30 and make arrangements for composting of wet waste. After June 30, officials said, the authority contractors will not pick up unsegregated waste from any locality or industrial area. This is being done to ensure minimum waste reaches the landfill. The city generates nearly 1,000 tonnes of municipal solid waste daily. “Once the waste is segregated at source, the wet waste can easily be

turned into compost. We can ensure that only dry waste is taken to the dumping site. This is why we have started sending out letters to all institutions for awareness so that they initiate segregation within their areas,” said SC Mishra, deputy general manager, Noida Authority. There are over 600 institutions, including RWAs, hotels, malls, industries, hospitals and factories, which will have to start complete segregation by June-end. The RWAs will also have to ensure that the wet waste can be locally turned into compost within their sectors.

रिश्वत मांगने के आरोप में महिला थाने की दरोगा निलंबित

गाजियाबाद : मुकदमे की धमकी देकर वसूली करने वाले दरोगा व सिपाही के खिलाफ मुकदमा दर्ज कराने के बाद एसएसपी एक और दरोगा को निलंबित कर दिया है। इस बार महिला थाने की दरोगा पर रिश्वत मांगने का आरोप लगा था। संदिग्ध हालात में महिला के नौद की गोलियां खाने के मामले में आरोपित पति से रिश्वत मांगने के आरोप में महिला थाने में तैनात दरोगा प्रीति गर्ग को निलंबित कर दिया गया है। आरोप था कि धारा हटाने के नाम पर दरोगा एक लाख रुपये की मांग कर रही थीं। मामले में पीडित की शिकायत के आधार पर एसएसपी ने सोमवार शाम आरोपित दरोगा को सरपेंड कर दिया। मुजफ्फरनगर के नई

मंडी में रहने वाले अनुज शर्मा का पत्नी सोनिया से विवाद चल रहा है। सोनिया मोदीनगर स्थित अपने मायके में रह रही है। अनुज ने बताया कि एक साल पूर्व सोनिया ने नौद की गोलियां खा ली थीं। गंभीर हालत में उसे अस्पताल में भर्ती कराया गया था। इस मामले में मायका पक्ष ने अनुज व उसके परिजनो के खिलाफ मुकदमा दर्ज कराया था। बाद में मामला महिला थाने में ट्रांसफर हुआ। दो माह पूर्व महिला थाने में तैनात दरोगा प्रीति गर्ग को उनके मामले की विवेचना सौंपी गई। आरोप है कि प्रीति गर्ग ने उन्हें जांच के नाम पर बुलाया। वह महिला थाने पहुंचे तो कहा कि मुकदमे में से धारा 328 को हटाई जा सकती है।

अनुज ने पूछा कि इसके लिए क्या करना होगा तो दरोगा ने कहा कि खर्चा होगा इसमें। रकम के बारे में पूछने पर उन्होंने एक कागज पर ही लिख दिया कि एक लाख रुपये लगेंगे। अनुज के मुताबिक वह निजी कंपनी में छोटी जॉब करते हैं और इतने रुपये का इंतजाम नहीं कर सकते। इसीलिए उन्होंने दरोगा को जवाब नहीं दिया। आरोप है कि प्रीति उन्हें अक्सर फोन कर जेल भेजने का डर दिखाने लगीं। कभी रात के 10 बजे तो कभी 11 बजे। बचने के लिए अनुज ने आने में असमर्थता जताई तो खुद मुजफ्फरनगर आने की बात कही। आरोप है कि दरोगा ने बहन, जीजा, मम्मी व पापा को भी जेल भेजने की धमकी दी।
